### **Configurations Available**

30 configurations are available, returning between 85.0% and 99.5% (inclusive) in 0.5% increments.

### **Features**

Chess Board Bonus is triggered randomly and may award up to 86 times the triggering bet. Free Spins Bonus is triggered when 3, 4, or 5 scatter symbols appear.

### **General Rules**

Chess Board is WILD and substitutes for all symbols except scattered Chess Clock.

All wins pay left-to-right, except scattered Chess Clock, which pays anywhere.

Only the highest win is awarded per played line.

Payline wins are multiplied by the credits staked per line.

Wins on multiple played lines are added together.

Scatter wins are added to payline wins.

### **Chess Board Bonus**

Chess Board Bonus is triggered randomly.

A full chess board is presented with the standard 32 chess pieces.

Player must pick chess pieces. Each chess piece will reveal a prize of 1 to 10 times the total bet or a "Stalemate" piece.

Player picks pieces until Stalemate is revealed.

If the first piece selected is a Stalemate, a consolation prize of 5 times the bet is awarded, otherwise the total accumulated prize is awarded.

Prizes from the Chess Board Bonus are added to payline and scatter prizes of the triggering spin.

### **Free Spins Bonus**

3, 4, or 5 scattered Chess Clock symbols trigger 5, 25, or 50 free spins, respectively.

Free spins are played using the same bet as the triggering spin.

During free spins, a mystery multiplier of 2x to 5x is applied to prizes.

During free spins, Chess Board (WILD) expands to cover all three positions of each reel where it appears.

Free spins can trigger additional free spins without limit.

Free spin wins are added to payline and scatter prizes of the triggering spin.

### **Feature Interaction**

If Chess Board Bonus and Free Spins Bonus are triggered simultaneously, the Chess Board Bonus will be played first.

Chess Board Bonus cannot be triggered during free spins.
