

DOUBLING DEUCES WILD

Doubling Deuces Wild video poker combines the thrills of Deuces Wild with the excitement of big multipliers.

Doubling Deuces Wild has a buy-a-pay feature that entices players to bet more. Betting 6 to 10 coins makes the player eligible for the Doubling Deuces feature. The larger the bet, the greater the player's chances of activating the feature.

When activated, the Doubling Deuces feature makes every Deuce in the final hand double the prize, for a final multiplier of 2x, 4x, 8x, or 16x.

Your players will love the wild card and multiplier action, and you'll love the increased profits from players betting more to improve their chances of hitting the 16,000-coin jackpot.

Doubling Deuces Wild is available in over a dozen configurations which return between 92% and 99.5%.
