Win Triggers

At random intervals during the Base Game and during the Super Spin Feature game, the Progressive Prize Envelope is started. The Progressive Play uses the automatic Hold & Spin method. A 5 of a kind outcome during the Hold & Spin play wins the Progressive Prize level available for that particular play. The First play is for the Minor Progressive; the second for the Major; and the third is for the Mega. When a win occurs, the Progressive Prize is paid AND the game immediately returns to the Base Game.

Progressive Prize plays are FREE

When a Progressive Prize Level is won, the new value is set at the 'start-up' value.
