

The Fusion Poker brand makes its debut with Jacks and Deuces, a hybrid of Jacks or Better and Deuces Wild.

What makes Fusion Poker unique is the blending of two completely different games into one. Players try to maximize the payout from two paytables instead of one.

Fusion Poker is the perfect solution for players who get frustrated at hitting Four Aces in Deuces Wild, or Four Deuces in Jacks or Better, missing out on a jackpot. With Fusion Poker, they get the best of both worlds.

The correct player strategy for Fusion Poker is more challenging than most video poker games, which means even the most generous paytable is capable of bringing players — and profits — to you.

The Jacks and Deuces flavor of Fusion Poker offers several configurations with an operator advantage ranging from 0.09% to 6% or more, depending on player skill.
